

Connecting to WaupacaFreeWifi

Windows Computer

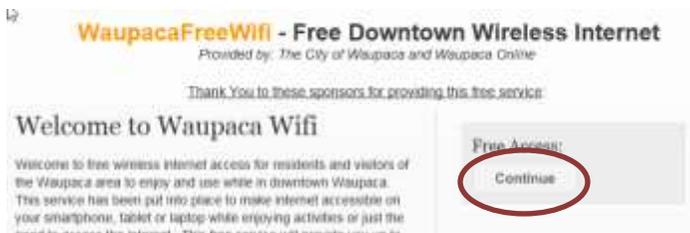

Go to the bottom right corner of your screen and click on the wireless network icon in the task bar.

In the list of wireless networks click Connect on **WaupacaFreeWifi**

After you are connected open your internet browser. You will be greeted with a splash screen with details about this service. Click on Continue. You are now successfully connected.

Smartphone (iPhone used in this example)

Go to settings and click on Wi-Fi/Wireless

Look for and then click on **WaupacaFreeWifi**

Ensure you are successfully connected.

Then open your internet browser and hit Continue on the splash page.
