### **HARDINESS ZONES FOR WAUPACA:**

When purchasing trees and plants check that they will survive in our area. Waupaca is in zones 4-5, depending on site location. Hardiness zone maps show general temperature trends, but not exact temperature variations. Site conditions can influence the survivability of plants and trees. Urban tree size and growth rate vary considerably and are strongly controlled by site conditions.

This is not a complete list of trees that may be available for planting.

- Remember right tree in the right place
- Plant at the correct depth
- Place coarse woodchips around tree
- Ensure trees and shrubs are not invasive species
